**Subject:** RE: FOIA Assignment for EPA-R8-2019-001651

The request is on hold until at least 12/11 when we have the call with the requester. Thank you so much for your input of the vast number of records. That really helps. I have tasked Joe Vranka to give me the name of SME.

*Thanks - Dayle*

**Subject:** FW: FOIA Assignment for EPA-R8-2019-001651

Dayle,

This request is vast, the records center currently has 2,095 records in SEMS for the Anaconda Aluminum site-MTD057561763, the majority appear to be scanned.

The Records Center agrees with narrowing the scope. And suggests, compiling an index based off of keywords provided by a SME, to determine responsive records for review and upload. Please let me know if you concur, and have a SME provide me with keywords.

Also is this request still on hold?

Thank you,  
Crystal N. Archuleta

**Subject:** FOIA Assignment for EPA-R8-2019-001651

You have been assigned to the FOIA task - EPA-R8-2019-001651. Additional details for this item are as follows:

- Tracking Number: EPA-R8-2019-001651
- Task Type: Search Pending
- Requester: Ms. Tess Hand-Bender
- Submitted Date: 11/29/2018
- Due Date: 12/14/2018
- Description: Under the Freedom of Information Act, 5 U.S.C. § 552, we are requesting copies of certain records evidencing inspections, enforcement, or other regulatory activity occurring at or relating to the Anaconda Aluminum Co Columbia Falls Reduction Plant located in Columbia Falls, Montana (the "Site"). The Site is currently owned by Columbia Falls Aluminum Company ("CFAC"), which is in turn owned by Glencore AG ("Glencore"). The Site may be referred to in EPA records as the "Columbia Falls Aluminum Company Plant" or the "CFAC Plant." EPA added the Site to the National Priorities List on September 9, 2016. The Site's EPA ID is MTD057561763. The EPA Administrative Settlement and Order on Consent for Remedial Investigation/Feasibility Study governing CERCLA response actions at the Site is identified by CERCLA Docket No. 08-2016-0002. In particular we request all records relating to: 1. Communications, inspections, enforcement, or other regulatory activity by EPA and its affiliates, pertaining to the Site. This request includes, but is not necessarily limited to, inspection reports, field inspection notes, other reports, permits, notices of violation, and enforcement-related orders; 2. All communications with, and all documents sent to or received from, CFAC or Glencore relating to the Site; 3. All communications with, and all documents sent to or received from, the Montana Department of Environmental Quality relating to the Site; 4. All documents produced by CFAC to EPA in response to the EPA's 2014 request for information under CERCLA Section 104(e), 42 U.S.C. § 9604(e); 5. All documents listed on the EPA Site File Index for the Site; and 6. All documents contained in the EPA Administrative Record for the Site. If possible, I would prefer to receive the requested records in electronic form (e.g., CD/DVD). If the copies cannot be transmitted electronically, please mail the copies of the records to me with an itemized invoice.
- Task Description: Please search for responsive documents concerning CFAC and this request. The request is on hold pending a conversation to narrow the scope of the request since some emails were released in a Previous FOIA EPA-R8-2018-003543 (Lauren Dillon of Democratic National Committee)
